# **ALTER ECO** *truffles*

These truffles from Alter Eco are made with smooth Fair Trade Ecuadorian chocolate and are wrapped in plant-based, non-GMO compostable wrappers. Every product Alter Eco makes is sourced from farmer-owned co-ops practicing sustainable agriculture.

Alter Eco's mission is to pioneer a full circle approach to eating and to inspire others to do the same. This means choosing clean ingredients, investing in farmers, regenerating the earth, and eliminating waste. They believe businesses should leave a positive impact on people and the planet.

# **FONTANA** *chocolate bark*

This chocolate bark is made from Fair Trade Chocolate at our local bakeshop, Fontana Bakery. UVADine offers many sustainable options that support our global community. Look for the Fair Trade logo when you buy your tea, coffee, chocolate, and even ice cream across Grounds!
